DETAILED ACTION

1. Claims 1-11 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Howe (5,664,978).

Howe discloses a power train of a marine transport vessel including an engine 5 having at least one output shaft ; at least one transmission 7 connected to the output shaft of the engine; the transmission including a plurality of output shafts 19, 22 capable of independent speed ratios through differentials 13 and brakes 29, 30; and a propeller 8, 9 connected to each output shaft of the transmission.

Allowable Subject Matter

4. Claims 2, 3, and 5-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Krause discloses a multiple output drive system for a marine vessel.
